What is the Sustainable Fleet Technology Conference?

The SFT Conference & Expo brings together leading fleets and technology providers to share industry ideas, trends, strategies and technologies. In each session, panels of content experts will share their experiences and showcase transportation technologies, fuels, and industry trends with a strong focus on data-driven decisions and tools.

Exhibitors and speakers will share innovative resources for improving efficiency and sustainability of fleet operations. The full three-day event includes:

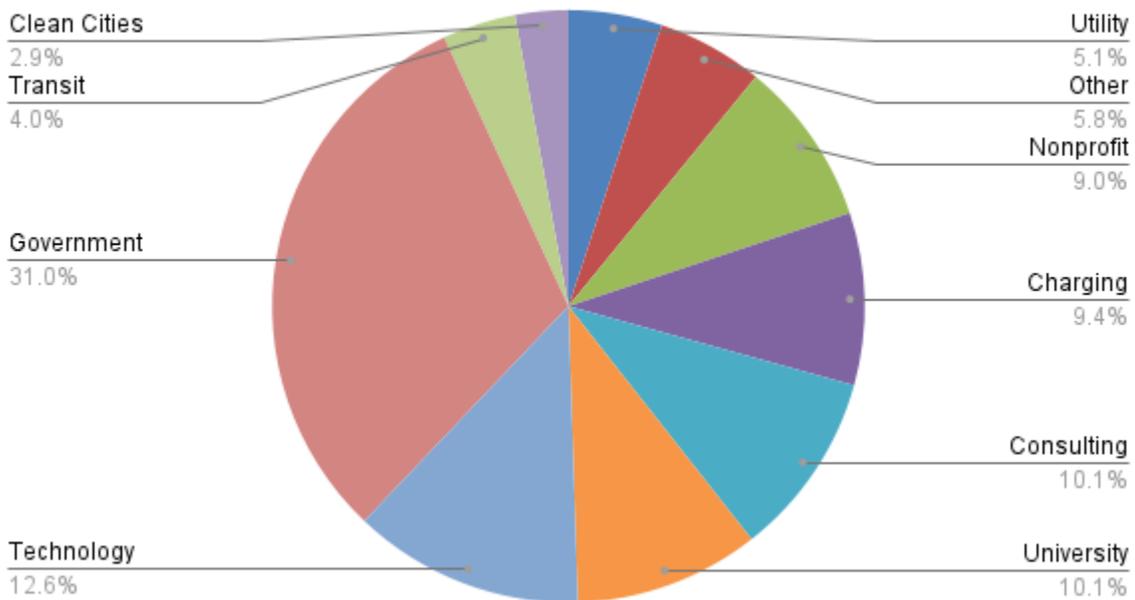

- Keynote presentations
- 70+ panelists
- 12 breakout sessions
- Expo Hall with space for indoor vehicle & equipment displays
- Opportunities to network with ~350 attendees

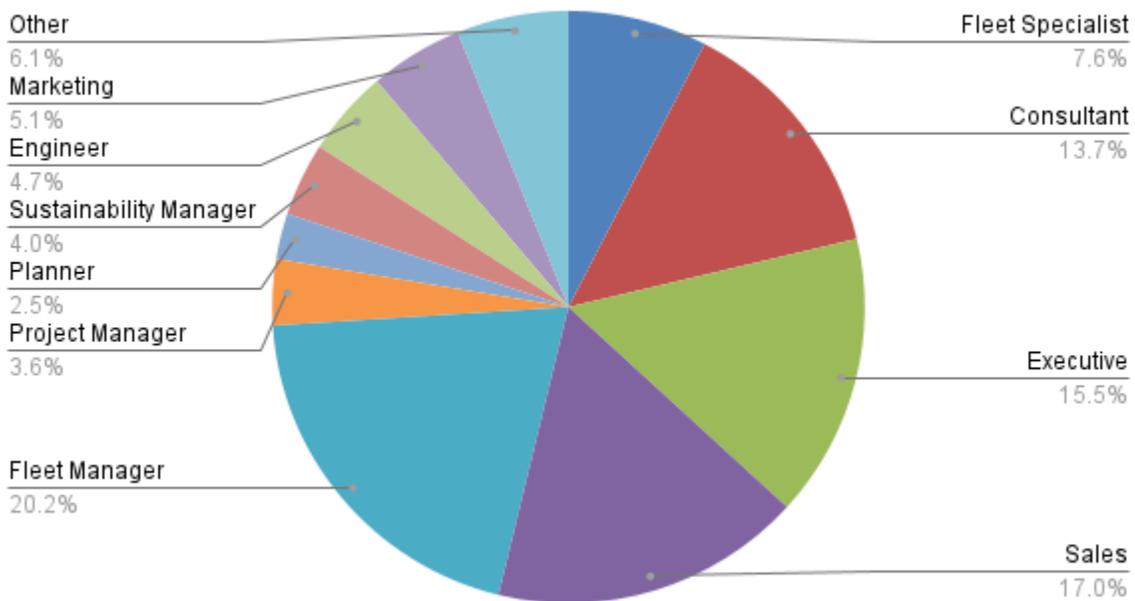

CONFERENCE AUDIENCE

Our attendees represent the full spectrum of fleet purchasing stakeholders. Our audience is comprised of 27% of participants working directly in fleet operations, alongside other professionals who influence fleet management budgets and decisions, such as city managers, sustainability directors, and various local government officials in the public sector and project managers, consultants, and engineers in the private sector.
